FOR IMMEDIATE RELEASE, April 8, 2010 –

Butler County Board of DD's partner provider agency, ECI, Inc. has formed a Relay for Life Team called Team ECI.

ECI's efforts have been focused on joining forces with the individuals we support, family members, guardians, and the community to promote the great cause of fighting cancer on behalf of the American Cancer Society.

This experience has truly demonstrated the unity of people coming together for a common cause; while accomplishing great success.

Team ECI's success will also be witnessed on the day of the event, held May 22-23 at Hamilton High School.

Employees and the people both ECI and the Butler County Board of DD supports will join together to walk the track, support people who have been affected by cancer, and celebrate the many survivors who will be recognized.

The website for ECI's Relay for Life team page can be found directly online:
